CORE COMPETENCIES

Supply Chain Optimization Demand forecasting, inventory control, and end-to-end supply chain analysis to reduce costs and improve on-time delivery rates.	Transportation Management Route planning, carrier negotiations, and TMS platform administration (Oracle TMS, MercuryGate) for multi-modal freight operations.
Warehouse Operations & WMS Receiving, slotting, pick/pack, and returns management using SAP EWM and Manhattan WMS; cross-docking and value-added services.	Regulatory Compliance & Documentation Expert in HazMat regulations (DOT/IATA), customs clearance, BOL preparation, and import/export compliance for domestic and international shipments.

PROFESSIONAL EXPERIENCE

Senior Logistics Coordinator

March 2023 – March 2024

Gulf Coast Distribution Partners, LLC · Houston, TX

Responsibilities:

- Managed daily inbound and outbound shipment scheduling for a regional distribution hub processing 1,400+ SKUs across 12 carrier accounts.
- Coordinated dock appointments and yard management to maintain a 97.3% on-time loading rate throughout the fiscal year.
- Supervised a team of 6 logistics clerks, conducting weekly performance reviews and training sessions on updated SOPs.
- Served as primary point of contact for key accounts, resolving carrier discrepancies and claim filings within 48-hour SLA windows.

Key Achievements:

- Reduced freight costs by 11% by renegotiating LTL contracts and consolidating lane volumes with two preferred carriers.
- Implemented a new appointment scheduling workflow in the TMS that cut dock wait times by an average of 22 minutes per load.

Logistics Analyst

January 2022 – January 2023

Lone Star Supply Chain Solutions, Inc. · Sugar Land, TX

Responsibilities:

- Analyzed shipment data and KPI dashboards to identify inefficiencies in the outbound network, presenting findings to the operations director on a bi-weekly basis.
- Collaborated with procurement and warehouse teams to align inventory replenishment cycles with customer demand forecasts.
- Maintained carrier scorecards tracking on-time performance, damage rates, and invoice accuracy for 18 active transportation vendors.
- Assisted in the implementation of a new WMS module, writing training documentation and supporting end-user adoption across the floor.

Key Achievements:

- Identified and corrected a systemic over-ordering pattern that reduced excess inventory holding costs by \$148,000 in one quarter.
- Earned the company's internal 'Process Improvement Award' for developing an automated freight audit template that recovered \$23,500 in billing errors.

Warehouse & Shipping Associate

February 2021 – February 2022

TexOp Freight Services · Stafford, TX

Responsibilities:

- Performed receiving, put-away, order picking, and packing operations within a 180,000 sq. ft. fulfillment center handling e-commerce and B2B orders.
- Prepared and verified shipping documentation including bills of lading, packing lists, and hazardous materials manifests in compliance with DOT regulations.
- Operated powered industrial equipment (stand-up reach truck, electric pallet jack, order picker) with zero recordable incidents over the assignment period.

- Participated in cycle count programs and assisted with annual physical inventory, achieving a 99.6% location accuracy result.

Key Achievements:

- Recognized as 'Associate of the Quarter' (Q3 2021) for consistently exceeding pick-rate targets by 15% while maintaining a 99.8% accuracy score.
- Proposed a re-slotting plan for fast-moving SKUs adopted by operations management, decreasing average pick travel distance by roughly 18%.
